NUMBER 250.

## THOROUGHFARES OF EDMONTON WILL BE GRANDEST IN CANADA

Contracts Let Last Night for all the Paving  
that both Companies would Supply.

WILL COMMENCE EARLY NEXT SPRING

Will Pave Jasper, Namayo, First and McDougall—  
Expected that Whole Work will be Completed within  
the Year—Street Car Proposition will also be Ready.

By this time next year it is intended Edmonton will have  
become one of the most attractive cities in America, at least so  
far as its business streets are concerned.

Jasper avenue, 100 feet wide, will be paved from gutter  
to gutter with bitulithic. There will not be a telephone pole,  
electric light pole or a wire of any kind on the whole street  
from Kinsington to the subway at Ninth street. A double track  
street car line will run down the middle of the street, laid with  
50-pound girder rails on a concrete foundation. Along the  
devil strip there will be a line of artistically built ornamental  
iron pillars with outstretched arms from which will hang the  
trolley wires. Surmounting the poles there will be a 1,500-  
candle power electric arc. There will be no overhanging signs  
but with the prospect of a further reduction in the cost of elec-  
tricity there is every probability that the whole street will be  
a blaze of lights. At the west end of the paved section will be  
the boulevard drives to the parliament buildings, the con-  
struction of which will within the next year be well under  
way.

First street admittedly the most important radial street in  
the city, will be paved with carbolinum wood block from Jasper  
to Elizabeth street. It will also be relieved altogether of  
poles and wires and will have the double track street car  
line. First street is 80 feet wide and runs due north and south  
for four miles. It leads from the heart of the city out to the  
Grand Trunk yards. Over 20 streets run into or cross First  
within a mile and a half; with the paving and car line it is due  
to become not only one of the handsomest streets in the city,  
but one of the busiest.

McDougall street will be paved with carbolinum from  
Jasper to Elizabeth. It will have no car track but will be  
absolutely clear of poles. The Imperial Bank, costing \$100-  
000, the post office, which is to cost \$200,000, the proposed  
court-house and the automatic telephone central from which  
all wires will be carried into the streets in underground con-  
duits will be some of the principal architectural attractions.  
McDougall street people believe that it is to become the bank-  
ing and financial centre of the city—the Wall street in fact.

Namayo is to be paved with carbolinum wood blocks  
from Jasper avenue to Sutherland. Namayo is already becoming  
a retail street and the section to be paved is right through  
the heart of the most thickly populated section of the city.

Contracts for 90,000 yards of paving  
were let by the council last night. The  
amounts are 55,000 yards for Jasper  
avenue, 11,700 yards on First street,  
14,000 yards on Namayo, and 14,000  
yards on McDougall street.

The total cost will be \$296,000, ap-  
proximately.

The bitulithic pavement is to cost  
\$3.25 a yard, the company guaran-  
teeing to do all grading, and the  
street car line, where it is put in  
with the paving, the company will  
build on a basis of 15 per cent. for  
superintendence.

The carbolinum block will cost  
\$3.65 per square yard, this company  
also guarantees to do all the grading,  
and undertaking to put the street car  
line in for a certain sum per yard,  
dependent on the class of track or  
rail. Although dearer per yard, the  
carbolinum is really the cheaper  
pavement as it has a six inch con-  
crete base which will be a permanent  
asset, as good at the end of the cen-  
tury as the day it was laid, while the  
bitulithic has only a two-inch mac-  
adam base.

The contracts let were for all the  
paving that both companies would  
undertake to do within the coming  
year. In fact the limit was pressed a  
little in both cases, as the Warren  
Bitulithic people only offered to lay  
50,000 yards and were given a con-  
tract for 55,000, while the Dominion  
Carbolinum Co. offered to take 30,000  
yards and were given 32,500 yards.

All contracts were let subject to the  
veto of the ratepayers interested. All  
paving will be advertised in the pro-  
per legal form and should the prop-  
erty owners along the street decide  
that they do not want the pavement  
they have the power to veto the order  
by petition.

The method of payment has not yet  
been fully worked out in the city  
offices. The pavement will probably  
be laid on the ten-year plan and the  
city will in all likelihood undertake  
the expense of somewhere between 33  
1-3 and 40 per cent, including inter-  
sections. When the car line is laid the  
two tracks and the devil strip will  
undoubtedly be charged up to the  
street railway, relieving property owners  
of the expense for 15 feet.

In choosing the bitulithic and the  
carbolinum paving the council was  
guided by reports and information  
which has been gathered at the city  
offices for many months. They feel  
absolutely certain that each pavement  
is the very best in its class, but as  
not a yard of paving of either kind  
has yet been laid in Northern Alberta  
it could not be decided which was  
the better suited to the climate of this  
country. As each company enters into  
bonds absolutely guaranteeing their  
pavement for ten years the council  
was taking no chances. The bitulithic  
people guarantee theirs for ten years,  
but believe that it will last 35 or 40.  
The carbolinum people undertake to  
pay all the cost of all repairs, if any  
are needed during the ten years of  
their guarantee, and guarantee to turn  
the pavement over to the city at the  
end of that time in perfect condition,  
absolutely free from rot or disintega-  
tion.

McKendrick, representative of the  
Warren Bitulithic Paving Co., will  
make all arrangements while here for  
commencing work as early as possible  
in the spring. He will probably let  
contracts today for the gravel and  
crushed rock necessary for the carry-  
ing out of the contract.

W. H. Harvey, the owner and man-  
ager of the carbolinum works in  
Vancouver, already has his plant  
working to capacity and with the Ed-  
monton order now in will not be able  
to supply another yard more than  
already contracted for. He will also  
be ready to commence early in the  
spring.

Before the paving work can be car-  
ried out there will have to be con-  
siderable sewer and waterworks ex-  
tension done in certain sections, the  
telephone put down and the street  
railway plans finished. All this is

## MAYOR MAY WILL NOT RUN

Definitely Announces That  
He Will Not Again Be  
a Candidate

Charles May, mayor of Edmonton,  
who has served the city so unselfishly  
for the year past definitely announced  
today that he positively would not run  
for a second term.

The mayor said "I have served this  
city faithfully on the council for the  
past three years and while I know  
that my efforts have been appreciated  
by those who understand the situation  
and who I fully appreciate the honor  
that has been placed in my hands I  
simply cannot afford to accept a second  
term. I have served the city as well as  
I could during the past three years and  
the interests of the city have always  
been first with me. It has cost me more  
time and money in the past year than I  
could afford to lose and while appreciat-  
ing the honor conferred upon me I could  
not consent with my own interests to  
accept the honor for another year. In  
consequence I have decided to not be  
a candidate in the coming contest."

It is reported on the street today  
that Thomas Bellamy will be asked to  
fill the place vacated by Chas. May.  
When seen by the Bulletin today Mr.  
Bellamy confirmed the report. He said  
that he had been solicited by his friends  
to allow his name to come before the  
electorate and that in the event of Mayor  
May's decision not to run again he had  
decided to do so. It is further reported  
that a requisition is in circulation asking  
Ald. Bellamy to accept the nomination for  
the position of mayor.

Registered in accordance with the Copyright Act by the Newspaper Artists  
and Cartoonists' Society of Canada.)

Messrs. Douglas Brothers, Strathcona.

Mr. J. M. Douglas was born at  
Lunenburg, Ontario, February 5th, 1867,  
and Mr. Robert B. Douglas in the  
same town, July 12th, 1869.

In the year 1877 both gentlemen re-  
moved with their parents to Winni-  
peg, and received their education  
there. On leaving school Mr. J. M.  
Douglas engaged in the dry goods  
business, and Mr. R. B. Douglas in  
the gentlemen's furnishing. In 1894  
Mr. J. M. Douglas came to Edmon-  
ton and was engaged in mercantile  
business until 1900, when he removed

to Strathcona, where the present busi-  
ness, with the above title, was estab-  
lished, his brother, Mr. R. B. Doug-  
las, joining him.

At the commencement the store was  
only one quarter its present size, but  
the business prospered to such a de-  
gree that it has been necessary to  
enlarge the store three times. The  
store is the largest in Strathcona.  
Both gentlemen are highly esteemed  
in the city, owing to their enterprise  
and extreme geniality.

## GRAND TRUNK RAILWAY ROUTE LOCATED AT YELLOWHEAD

CONTRADICTORY EVIDENCE.

Toronto, Nov. 14.—So contradictory  
was some of the evidence in the elec-  
tion conspiracy case before Magis-  
trate Dennis today that his wor-  
ship suggested that action be taken  
against some of the witnesses. Crown  
Counsel Juvenel later intimated that  
he had referred the matter to the at-  
torney general's department, together  
with the evidence and stated that he  
would follow whatever line of action  
was advised. A greater part of the  
evidence was a relating of events  
during the McLean-Holmes election  
in West Huron in 1889, where J. G.  
Pritchett admitted having instructed  
the deputy returning officers in ballot  
switching. When on the stand  
Pritchett swore that two or three bal-  
lots had been switched at the poll  
where William Gundry, of Goderich,  
presided, and said no person but the  
deputy could have done it. Two wit-  
nesses stated that objections had been  
taken on polling day against certain  
of Gundry's procedures. The latter  
denied having switched ballots and  
did not think any objections were  
made at all.

TEDDY GOES SOUTH.

Colon, Nov. 14.—The U. S. battle  
ship Louisiana, with President Roose-  
velt on board, arrived here at 1.30  
p.m., accompanied by the cruisers  
Tennessee and Washington. The three  
ships anchored a mile from the docks.  
A heavy rain was falling when the  
president reached this port. Presi-  
dent Amador had not reached Colon  
when President Roosevelt arrived  
here. The Louisiana was ahead of  
time.

## Plans Filed With Railway Department in Ottawa This Morning

## MARKS END OF GREAT RAILWAY RACE

Many Survey Parties Still in the Hills—Herculean  
Efforts will be Made to Complete Line to the  
Coast this Winter.

The big railway race to the Yellowhead is over and the  
Grand Trunk Pacific wins, the Canadian Northern coming in  
a bad second.

All doubt as to what route the big transcontinental is  
going to take to the Pacific ocean was set at rest today by a  
special Ottawa wire received by the Bulletin bringing the  
news that the Grand Trunk Pacific has filed location plans  
with the railway department at Ottawa this morning for their  
route from Edmonton to a point 14 miles to the west of the  
Yellowhead pass. The exact point on the British Columbia  
side of the watershed is not mentioned but it is probably about  
Bear Lake, or Yellowhead Lake as it is now called.

The intermediate portions of the route will not be known  
until duplicates of the plans filed at Ottawa are received at the  
registry office here.

Probably no single feature in the  
railway history of Canada has been  
more spectacular and at the same  
time more quietly and phlegmatically  
worked out than the railway race for  
the Yellowhead, which finished with  
the Grand Trunk well in the lead this  
morning, when plans were filed for  
the route to a point 14 miles from the  
British Columbia side of the divide.

And probably there has never yet  
been the location of a route in which  
there was more speculation and guess  
work than the Grand Trunk crossing  
of the continental divide.

It is now going on toward three  
years since the riddle was first pro-  
pounded: "What route will the G.  
T. P. take?" And no one in Canada,  
unless it might be the kingpins of  
the head office, has ever heard the  
answer before this morning. Wise  
ones east, west and south have been  
guessing and the line has been guess-  
ed into place by competent authori-  
ties in every known or alleged pass  
in the Rockies from Kicking Horse  
to the Peace River. In Edmonton,  
however, the question had narrowed  
down to two passes last spring, the  
Pine and the Yellowhead, and those  
who were following the movements of  
the company's advance guard  
throughout the summer, were morally  
certain that the latter route was the  
chosen one, although no one, not even  
the engineers themselves, positively  
knew. All summer long the greatest  
activity on the whole route has been  
centered on the Yellowhead pass sec-  
tion of the route. Several parties of  
surveyors are still in the field and will  
be there all winter in an effort to get  
the road surveyed through to the Pa-  
cific coast.

The route which has finally been  
settled upon is now so well known

As long ago as 1878, when the Do-  
minion government made a prelimi-  
nary survey of the Yellowhead, it be-  
came known that it was a lower and  
easier pass than that used by any  
other railway crossing the continental  
divide. Its greatest altitude at any  
point is 3,256 feet, and at no place in  
the entire crossing does the grade ex-  
ceed 1 per cent., and that only for a  
few miles. Almost the entire climb  
is made on three-tenths of one per  
cent and the descent on the other side  
is on a water grade almost all the way  
to the Pacific coast.

## HAMILTON SETTLEMENT IN SIGHT

Hamilton, Ont., Nov. 15.—The  
strike situation took a decided change  
early this afternoon and there is now  
some hope that a settlement may be  
reached. Mayor Biggar brought A.  
B. Ingraham and President Theaker,  
of the union, together, and arranged  
for a conference this afternoon to  
try and effect a settlement. The com-  
pany had made all arrangements to  
operate their cars but at the request  
of the mayor deferred action until  
after the conference.

TERRIFIC STORMS.  
 Tacoma, Wash., Nov. 15.—Flood covered an area of 300 square miles in Northwestern Washington to-day as a result of heavy rains and melting snow which for forty-eight hours have rushed down the slopes of the cascade Mountains. Several are reported drowned and scores of towns are reported wiped out. Communications are cut off. 18 houses and 18 bridges were swept away and the car tracks washed out. Portland, Wash., Nov. 15.—Since the white man came the state of Washington has not suffered from such a storm as raged here last night and early this morning. Storm wind and rain for the past week have wrought heavy damage with coast-wise shipping. Yesterday the storm swept in land and is venting unheard fury upon the whole state especially the Puget Sound country and extends even to northern Oregon.

Among the presents received was a particularly handsome miniature, set in diamonds and emeralds, the gift of Lady Laurier, whose genuine liking for bright young girls is one of the characteristics of her social life.

**A RECIPE**

Break 3 oz. of macaroni or spaghetti into small pieces, boil in rapidly boiling salted water; when tender drain off the water and add half a pint of milk; cook slowly till the macaroni has absorbed most of the milk. To half a pint of thick white sauce add 2 oz. of grated cheese and mix with the macaroni; last of all add two well-beaten eggs. Butter a plain border mold, sprinkle it with browned bread crumbs and pour in the macaroni mixture; steam gently for about half an hour, turn out, and fill the center with stewed tomatoes and mushrooms.

## C. P. R. ARGEEMENT.

The negotiations between the C. P. R. and the city resulted in a tentative agreement setting forth what the company wants and how and on what conditions the city is prepared to grant their desires. This agreement will be gone over by the council, put in the final form acceptable to the city and forwarded for the acceptance of the company. So far as it goes this tentative agreement is generally satisfactory, but it does not appear to go far enough to deal with the crux of the whole situation, nor do the discussions in which it was forged appear to have been concentrated on the real point at issue.

It transpired early in the negotiations that Mr. Jamieson's "new proposition" was merely a phrase of expediency designed to gain time. As expounded by himself and Mr. Whyte this novel scheme was that the C. P. R. should provide superstructures or subways on the streets south of Jasper. Where the gentlemen found the excuse to call this proposition "new" or to even designate it as a "proposition," new or old, from the company, they should have been pressed to explain. This plan came not as a proposal from the company, but as a demand from the city, and has been recognized for months as the only condition on which the company would be permitted to traverse the streets.

Despite these obvious facts the officials dwell impressively on the generous readiness of the company to comply with a condition which they could neither evade nor avoid, and by slowly yielding to the demand for a subway on Jasper avenue still further protracted the preliminary discussion on what should have been matters of course. By so doing they had the opportunity of making a show of magnanimity while really keeping the battle waging on the skirmishing line and far in advance of their real position.

The real problem for solution was whether or no and on what terms the company would be permitted to close, Peace and Athabasca avenues and to practically complete the closing of Mackenzie avenue. It was important that Jasper avenue and the avenues south be kept open by superstructures or subways and the council did well to embody these provisions definitely in the tentative agreement. But these were primary conditions and preliminary to the question of whether or not the streets north of Jasper should be closed. Yet by disputing these preliminary conditions regarding the streets from Jasper south the officials appear to have prevented the real problem of the situation occupying the predominant position in the themes of discussion. And when the discussion showed signs of concentrating on this question the solicitor of the company took the opportunity to interject a bullying inquiry as to whether or not Edmonton wanted the C. P. R.

It should be remembered that the request of the company is for the practical closing in on two sides of the sections lying north of Jasper and both east and west of block ten. While only Athabasca and Peace will be closed in fact, Mackenzie will also be closed in fact. The southerly forty feet are now conceded to the G. T. P., and if the C. P. R. is granted permission to cross at right angles with two tracks the avenue will be practically useless as a thoroughfare. In the light of this it would not appear unreasonable to demand that one of these three avenues should be carried across the tracks, either in a subway or on a bridge.

The manoeuvring of the company's officials should not be permitted to deceive the city. The agreement with the company is only tentative. The council have the opportunity to go into the real question in detail and embody in the agreement any provisions considered necessary to conserve the city's interests. They need be possessed of no unusual sensitiveness in doing so. Edmonton wants the C. P. R., but the C. P. R. also wants an entrance to Edmonton, and while there should be no antagonism shown or provoked toward the company, neither should the company be permitted to unnecessarily interfere with the traffic and development of the city. In former railway agreements Edmonton was the suitor; in the present instance the company proposes

## CURRENT COMMENT.

Ottawa Free Press: Since the general elections on November 3, 1904, a number of by-elections have taken place and have resulted in favor of the Liberals, with few exceptions, the latter having been already held by Conservatives. Some of the by-elections were gains from the Conservatives, in no one case was there any Liberal loss. Taken as provinces, the by-election results were: In Ontario, 3 Liberals, including the new Minister of Justice, 3 Conservatives; in Quebec, 2 Liberals and 1 Liberal labour; in British Columbia, 1 Liberal, the new Minister of Inland Revenue; in the Northwest, 3 Liberals, including the new Minister of the Interior; in Nova Scotia, 3 Liberals; Antigonish, North Cape Breton and Victoria, and Shelburne Queen's on Wednesday.

Calgary Albertan: They have a lot of snow in Edmonton and they are not at all pleased with it, not so much because they object to the snow but because it does not seem very attractive to the land seeker who has passed through Calgary upon dry land. That the land is "dry" in Calgary there need be no doubt. It has traditions to maintain along that line. As to Edmonton people and the snow—well they are not worrying much. We had six inches a few days ago, now there are signs of more and the popular verdict is "Let her come." Incidentally, the Albertan should not be overjoyed about the absence of snow at this time of the year. It will turn cold in Calgary one of these days, and what about the fall wheat with the mercury in the twenties and no snow on the ground?

Rev. R. E. Knowles, of Galt, Ont., in a recent sermon paid a high tribute to Sir Wilfrid Laurier. Mr. Knowles is described as an "ardent and pronounced Conservative," yet he said Sir Wilfrid Laurier had done "more to kindle the star of empire than any other living man," and continuing he said: "But our expectations and startled nation looks to him for nobler accomplishments than any he has yet achieved. The purity of his life, the exalted standards that have governed his political career, the loyalty to that day of rest for which we invoked, and not in vain, his strong protection—all these warrant the Canadian people in turning with confidence to him in the hour of our consternation. And if he shall devise and execute national morals, as he only can, the lustre of his political noon will pale before the splendor of the eventide, and what is now a nation's admiration will then be a nation's reverence and love."

Rome, Nov. 15—A bomb was exploded in front of the Cafe Aragno in the centre of the city yesterday. The fashionable throngs at the cafe were thrown into confusion and one man was wounded. The perpetrator of the deed was not apprehended. A young man is supposed to be the anarchist. The theory is advanced that the attempt to blow up the cafe was revenge for having been prevented from holding a demonstration last Sunday in commemoration of the hanging of the Chicago anarchists 19 years ago.

Montreal, Nov. 14—At nominations for St. Anne's division this morning, Dr. Guerin, would be candidate, with Drew, and J. C. Walsh, the choice of the recent convention, received the nomination. The fight will be a straight one, Walsh for the Liberals, and Frank Curran for the Conservatives. A rumor which is not believed is to the effect that Guerin will throw in his lot with Curran.

## FOR THE ENCOURAGEMENT OF THE PRODUCER

At the evening session of the association meeting of the board of trade, held in the secretary's office last evening, the attendance was not quite as large as the importance of the matter to be discussed deserved, but the gentlemen present evinced a deep interest in the matters under discussion; and it is hoped that results of permanent advantage may accrue from the consideration given to the matters brought up. The chief speaker of the evening was Mr. Thos. Daly, who made a lengthy and interesting address, which was designed to show how much the prosperity of the business men of the city was bound up with that of the surrounding farmers. Mr. Daly pointed out some directions in which the farmers are not now receiving as much benefit from their labors as they should do, the business of the city suffering accordingly.

It was pointed out among other things that the growing of wheat under present conditions was not as profitable to our farmers as is desirable, whereas in a year or two our local mills have been able to pay noticeably more than export values for wheat, this season buying must be done on an export basis. There are now full, and buyers do not want wheat, causing exceedingly unsatisfactory and unprofitable conditions for the farmer.

A general and lengthy discussion then took place as to the cause of this, and the possible remedy. In the course of the discussion many facts were brought out. Amongst others, it appears that in the past some blame may have been attached to local shillers who were possibly not as careful as they should have been, and flour that was unreliable in quality was undoubtedly put out, prejudicing the local public against local flour. It was shown, however, that this is a condition which has not existed for the past two or three years, and that flour is now produced by the local milling concerns which is good enough for anything. It was also shown that the farmers themselves were by no means free from blame, and could find plenty of room for improvement in their methods. Gentlemen present connected with the milling business state that they are getting in wheat that is very badly smutted, principally the result of careless farming. It was also stated that many of the farms are unreasonably and inexcusably dirty, and much of the wheat is coming in very badly mixed with seeds. All sides seemed to unite, however, in the opinion that the principal fault lies with some of the local merchants, many of whom do not make it a point of packing local flour, and some of whom practically refuse to handle it at all, and also with the general public, who do not insist on getting the local product when ordering flour. It seemed to be the opinion of the meeting that there was now no adequate reason or excuse for this practice, as the very best of bread could be had and is made from flour turned out by the local mills made from local wheat. There is therefore absolutely no excuse for Edmonton merchants sending to mills outside of the district for flour. The suggestion was made that the farmers themselves, in vigorous and united action in making strong representations to the merchants who refuse to handle

or push the sale of flour made from wheat of their own raising, could do a great deal towards remedying the present conditions.

In continuing his address Mr. Daly suggested the need of better facilities than at present exist for the marketing of many other commodities raised by the farmers. He suggested that a proper market building where farmers could bring such produce as they have to dispose of, and get in direct touch with consumers who needed such produce, would have a decided tendency to improve prices, and lend stability to the market and create more desirable conditions both for the producer and consumer. In a discussion on this point it was incidentally brought out that in some directions the principal difficulty appeared to be not for the farmers to get the price for their products but for the city consumer to get farm products at any price. It was brought out that though good prices usually prevail, there is a chronic shortage of many lines of farm produce, particularly such as nice poultry, eggs, good butter, etc.; while one gentleman made the statement that his family had been compelled to go for over two weeks without milk or cream. The statement was also made that during the year 1905 there had been brought into the province of Alberta something in the neighborhood of 75 carloads of poultry and eggs. These were not shipped in because they were not procurable in the province at any price. It was suggested that many of the farmers living within easy reach of this market might with very material advantage somewhat alter their methods of farming to the extent of devoting more time to those products for which there was a very keen demand at high prices, and less of their energies to raising certain other commodities for which they are complaining that the market is unsatisfactory.

Mr. Daly also suggested that it is highly desirable that a closer relationship should exist between the business men of this city and the farmers in the surrounding district, with whom they do business. The

interests of both sections of the community are so nearly identical that there should be the utmost possible harmony between them and a careful consideration of their mutual interests. Mr. Daly suggested that some means should be devised by the board of trade, such as a committee who might be in touch with both sides, to bring the business men of the city into closer touch with the farmers.

In the course of his address, Mr. Daly also made a plea for the best sugar growers of Southern Alberta. It was explained that the district around Raymond have been very good customers for this part of the country for many commodities which they do not grow largely themselves, such as potatoes, oats, and hay; and consequently it would be good business on our part to reciprocate by the use of the product of the best farms, thus improving our markets with them. The statement was made that the Knight Sugar Company of Raymond have not been receiving that amount of support and encouragement from the people of Alberta to which they are considered to be properly entitled, though Mr. Daly has been using Raymond sugar in his own household, and considers it the equal of any sugar made anywhere, and it is regularly sold at a slightly lower price than other sugars, much the greater proportion of sugar used throughout Alberta is entirely foreign grown and the Raymond enterprise in consequence has still on a hand a very considerable proportion of its last year's output, a condition of affairs which is of course most unsatisfactory to the enterprise, and consequently to the surrounding farmers who furnish it with beets.

At the close of Mr. Daly's address and consequent discussion a resolution was passed authorizing the president to name a committee who should confer with representatives of the farmers, with a view to going fully into all the points discussed, and endeavoring to arrive at some satisfactory solution of the various difficulties, to the mutual advantage of the business men and the agricultural community.

## COMING WEST

**Bellevue Special.**  
Bellevue, Nov. 14.—The mill building on the site of the old mill, one of the largest manufacturers of mills and threshing machinery in Ontario, has been started here for the four provinces and will erect a new factory here in the spring and build large warehouses.

## WANT NEW LOCK.

**Bellevue Special.**  
Bellevue, Nov. 13.—The Free Press says, "Plans are well under way to bring before congress early in the approaching session the desirability of an appropriation of \$4,000,000 for a new lock at the mouth of the St. Lawrence canal. The lake carter association will urge that the new lock be covered in one appropriation which event it is expected that the new lock can begin next season and be completed in 1909. Col. Davis, United States district engineer, is officiating during the last week of the present lock to be built just north of the present lock."

## NO DEMONSTRATION

**Bellevue Special.**  
Bellevue, Nov. 13.—The reports from Ottawa that preparations are being made for an Anglo-French naval demonstration off Tangiers, are official. The admiralty states that the Atlantic fleet, which has just returned to Gibraltar from a cruise among the Balearic islands, is replenishing its stores in the ordinary manner preparatory to a further cruise.

## CAR SHORTAGE IN ONTARIO

**Bellevue Special.**  
Toronto, Nov. 13.—General complaints from shippers and manufacturers in this part of the country are coming to the manufacturers' association, concerning the shortage of cars, particularly on the Grand Trunk. These complaints include cement manufacturers, lumber men and many other industries. The Grand Trunk is charged with allowing the use of the lumber business to go over to the Grand Trunk Pacific. The Grand Trunk is full and congestion is said to exist everywhere. These complaints have been forwarded to the railway commission. In reply the commission states that they are now serious the situation is as an investigation is now being made. When the report is made an effort will be made to adjust matters and ease the hands of the railway companies. The railway companies state orders have been placed for cars and more cover for a year in advance. The C.P.R. says that twenty-four cars daily are being received from the shops with the result that congestion on their line is comparatively light.

## CHEMIST SUICIDES.

**Halifax, N.S., Nov. 14.**—A shocking tragedy occurred in Ayleson hotel, North Sydney, last night, about nine o'clock, when Ernest K. Cole, a native of Hamilton, Ont., placed the muzzle of a 38 calibre revolver to his forehead and blew his brains out. The unfortunate young man came to North Sydney about a month ago and worked for a short period as chemist at the Nova Scotia steel plant at Sydney mines. He held that position for only a few days, quitting work of his own accord.

## ROCKFELLER INDICTED.

**Findlay, Ohio, Nov. 14.**—The grand jury today found indictments against John D. Rockefeller and four other persons in connection with the Standard Oil Co. What the indictments allege or who the four other defendants in addition to Mr. Rockefeller are, was not given out by Prosecutor David, who, however, admitted the indictments had been returned.

## TERRORISTS SENTENCED.

**Osessa, Nov. 14.**—Five terrorists, including a girl, were tried by court martial today for having thrown a bomb in a cafe and thereby injuring two persons. Two of the men and the girl were sentenced to death. The other two men were given seventeen years' penal servitude.

The stock market has had sensational advances today. Some that have been active are St. Paul, Union Pacific, Reading, and Southern Pacific, scoring advances of from \$1 to \$1 a share, and during the last week have advanced from 5 to 15 points.

The good news of the past few days continues. The price of wheat is steadily appreciating. The opening today in Minneapolis was 76 3/4 and closed at 77 3/8. During the last few days it has scored an advance of about 3 cents. To the farmers of the west this means a considerable increase in the value of their wheat crop to the extent of two and a half millions of dollars. The prospects look as if it would continue. There is a strong feeling among the farmers of the north and middle west to hang on to their holdings, and are said to have affected an organization that will hold wheat until it reaches a dollar.

## OREGON FLOODS.

Portland, Ore., Nov. 14.—The Oregonian has just received a telephone message from Seattle stating that that city is cut off by flood water. The message says that three lives have been lost and that the damage will run into hundreds of thousands of dollars.

## TESTING ALBERTA OATS.

Last spring Mr. R. J. Deachman the representative of the Farmer's Advocate in the West procured a sample of Banner oats grown by Mr. Thomas Daly of Edmonton, which he sent to the Experimental farm at Guelph, Ontario for a comparative test with other variety tests. Our own "Banner" oats yielded at the rate of 2.97 tons per acre of straw, and 87.35 bushels per acre of grain. The "Banner" oats from Mr. Daly yielded at the rate of 2.2 tons per acre of straw, and 85.93 bushels per acre of grain. We had some heavy storms during the time that the oats were being raised, and the plants were badly lodged. These obtained from Mr. Daly ripened about two days earlier than our own. There was very little difference in the height of the crop on the two plots, or the amount of straw on the two plots. It was quite interesting to watch the growth of these two plots, and I was surprised to find so little difference between them. The only noticeable difference during the time of the test was that the Alberta grown oats seemed to have a deeper green color and the plants looked more vigorous, but evidently the grain did not fill out quite as well as in the plot of Ontario grown oats.

Mr. Daly explains the difference in the yield to the fact that vigorous growth of the Alberta Banner variety was lodged and lying down. He is going to complete the comparison by having some of the Ontario Banner variety experimented with in Alberta.

**BILEANS A "WOMAN'S MEDICINE."**  
Grateful Wives and Mothers Testify to Their Value.

Bileans have been called a woman's medicine, because of their exceptional fitness for the various ailments peculiar to the sex, as well as for liver disorders and stomach ailments generally. Unlike most liver and stomach medicines, Bileans contain no blinding mercury or any mineral whatever. From coating to kernel they are purely vegetable.

Mrs. J. Whitfield, of Swan Lake, (Man.), says: "Bileans have done me a wonderful amount of good. I can hardly describe how bad I felt before I took them. I could not eat, but they cured me. There was a constant sensation of tightness in my side, and my liver was entirely out of order. I could not sleep at night, suffered also from kidney trouble, and was altogether in a rundown and very serious condition. I had been ailing in this way for years, and it is gratifying to find that Bileans were equal to my case."

Mrs. Wm. Hall, of Dean Lake, says: "I have proved Bileans very good for constipation, from which I suffered a great deal. They cured me."

Mrs. J. H. Thompson, of Cleveland Park, says: "For irregularities and painful periods, from which I suffered a great deal. They proved a constant blessing to me and restored me to health when I had become very ill and very despondent."

Bileans are absolutely unequalled for female ailments and irregularities, constipation, piles, anaemia, debility, rheumatism, blood impurities, etc. They tone up the system and enable the body to throw off colds and chills, strengthen girls just emerging into womanhood, and speedily restore energy and strength to those who are run down. Of all drugs, Bileans are the best. They are sold in a box, or post free from the Bilean Co., Toronto, on receipt of price, 6 boxes for \$2.50.

### THE ROSCIANS.

The opening performance of the Roscian Opera Co. last night was greeted a good sized house. The managers have put in two furnaces and four stoves which render the theatre very comfortable. An immense canvas screen which has been decorated to give the appearance of the Union Jack has been stretched across the theatre.

The production was the Japanese opera in two acts, "The Mikado." The features of note are the splendid chorus singing throughout, and the funny sketches by Ed Flavelle who is distinctly original and humorous. The solo parts taken by Carl Hoffman, baritone, and F. W. Walters, tenor were appreciated with keen delight and heartily enjoyed, in one instance being brought out four times. No singer who has appeared in the city this season equals either in quality, range or strength of their production.

The scene of the play is laid in Japan and is cast to show how essentially absurd are the customs and rites of a semi-barbarous people when thrown in the light of common sense.

## Western News

A newly-arrived immigrant, presumed to be Walter Charlesworth of Ashton-under-Lyne, Staffordshire, England, committed suicide in Winnipeg last Monday morning by jumping into the Assiniboine River.

Speculation is busy at Regina concerning the municipal nominations which take place there in three weeks' time. It is expected that Mayor McArthur will be in the field again for a second term of office.

Dr. Herdman, superintendent of missions for the Presbyterian church in Alberta and British Columbia, preached last Sunday at the Presbyterian church at Medicine Hat. During the course of his able sermon, in speaking along educational lines, he remarked on the need for a Presbyterian Ladies' college in Alberta. His choice appeared to rest upon Medicine Hat and he said that if the city would support such a movement that the Presbytery would sympathize with it, as he considered there was no finer location to be had. ### GOLD SEEKERS RUSH TO MOUNTAIN

Bulletin Special.  
Madsen, Sask., Nov. 13.—Icelanders are most favorable that one of the richest gold finds was made five miles east of here yesterday. Messrs. Fieldhouse and Bowell of Vermilion, with two experienced miners from Montana, made one of the biggest discoveries. They returned to Vermilion to organize a syndicate and will at once go to work and push development on the claims. Several experienced men who have been for years in the Klondike are now on the property here prospecting and without doubt it will prove one of the richest gold discoveries made in Canada. Every train is loaded with gold seekers.

### CRIMINALS SENTENCED

Bulletin Special.  
Postage is Prairie, Nov. 13.—The assizes closed this afternoon and sentences were passed on four convicted prisoners of Birnie district. Herbert Hale and Fred Hatch, convicted for arson, were given three years and one year respectively; J. McPhail, for rape, received fifteen months; Sam Buchanan, leader of the bunch, was given seven years. McPhail and another of the gang, is too ill to stand trial, and is not expected to recover.

### KILLED BY A TRAIN

Bulletin Special.  
Brookville, Nov. 13.—John Griffin, Elizabethtown, was struck by a G. T. R. freight, receiving injuries which will prove fatal. The team and rig were carried some distance on the front of the engine, but the horses escaped serious injury.

## CITY COUNCIL

### Three Important Propositions Attended to at Last Night's Meeting.

Besides the paving proposition there were three important matters before the council last night at their extra meeting, the sewer contract, the beautification scheme and the proposal to enlarge the council.

The council decided to negotiate with the Canadian White Co. for the completion of the sewer contract on a force work basis and J. W. Carter representative of the company in Edmonton was instructed to notify the headquarters at Montreal that the council was ready to negotiate. Frank Alfred general manager of the company will be in Edmonton in a few days when he and the city engineer will make an estimate to see how closely they can agree on the probable cost of the work.

Alderman Griebach's motion which has lain on the table for nearly six weeks found only one supporter, Alderman Manson on the ground that a larger council would lessen work. All the other members of the council were of the opinion that eight was quite a large enough council, and that to increase the number to ten would have a tendency to make the council cumbersome.

It was finally decided by the council to employ F. G. Todd, the landscape architect who is doing the Provincial Parliament grounds for the Alberta Government, to prepare a comprehensive beautification scheme for the city. Mr. Todd's fee is \$500. The general outline of the scheme is along the lines laid down by the board of trade.

A letter was read signed by residents of Fraser avenue stating that they would not object to the livery stable being built by Johnston & Latimer on lots 5 and 6, block 4, River Lot 10. The request was granted.

## Strathcona News

Wednesday, Nov. 14.—

A large number of people were attracted to the open space in front of the rink yesterday afternoon by an exhibition of bronco busting to be given by a member of the "Out in Idaho" show that appeared here last night. The exhibition arose from a challenge that the aforesaid actor could "bust" the most vicious animal that could be procured in Strathcona on pain of forfeiture of \$100 should he be unable to do so. An unsuspecting steed was led forth but it was not in humor to test the agility of the horseman and a second was procured with no better success. Every expedient was used to get the animal to show its mettle, but to no avail and the disappointed owners of the horses led their tractable steeds away.

### LOCALS

—Vice President Whyte and R. R. Jamieson of the C.P.R. left early this morning on return to Calgary after the arrival of the north bound train, shortly after midnight.

—Dr. McIntyre, M.P. leaves on Tuesday for Ottawa to be present at the opening of Parliament on the 22nd.

—Mr. D. R. Ker, general manager, of the Brackman-Ker Milling Co., Ltd. has been in Strathcona during the past week.

—A Swedish settler, Hans Sandbu, by name, living thirty miles south-east of Strathcona was in town this week seeing the R.N.W.M.P. about a serious loss he recently sustained. He has lost twelve head of cattle by poisoning, finding them all in a bunch. Mr. Sandbu was of the opinion that he was the victim of some designing person though he has no enemies among his neighbors, but the police think that water hemlock is the cause—Planddealer.

—The death took place a few days ago of J. H. Lovering, a former resident of Strathcona but recently of South Bend, Washington.

The Literary Society of the Grandin street school has been re-organized and the first meeting will be held on Friday night. An interesting program is being prepared.

—One drunk arrested last night appeared at the police court this morning conference with C.P.R.  
Upon their return from Edmonton last night, Messrs. Whyte and Jamieson of the C.P.R. had an informal conference with Mayor Shepard, Councillors Douglas, Dr. McIntyre, M.P. and Town Solicitor Jamieson with regard to the draft agreement reached between Edmonton Council and the C.P.R.

### ATHLETIC

The organization of an athletic association in connection with the Grandin street school was completed yesterday afternoon with the following officers.  
Hon. Pres.—Hon. A. C. Rutherford.  
Pres.—Mr. R. S. Jenkins, M.A.  
Vice-Pres.—Miss Agnes Wilson.  
Sec.—Treas.—W. J. Reid.  
Executive Committee—Angus Currie, Stanley Walter, Miss Paul, John Alton, Miss Ferguson, Miss Jones, Charles Scarborough.

### WOMAN DISAPPEARS

Some days ago a woman giving her name as Mrs. W. Snodden and residing at the Victoria Boarding House, Edmonton, obtained on application a quantity of goods from Mr. J. P. Weir. Since that time there has been no trace of either woman or goods though the police of both towns have been looking into the case.
